

Dominique Dykes

Front End Developer

Augusta, Georgia

 (762) 383-4380

 nique.dykes@gmail.com

 <https://portfoliodom1213.netlify.app/>

As an English graduate with a passion for technology, I am seeking an entry-level position in software engineering where I can leverage my interdisciplinary skills to create innovative solutions.

Experience

Vital Workforce Solutions / Health Service Technician

Jan 2022 - PRESENT, Augusta, GA

Charts and records information in client files along with monthly cybersecurity modules, tests, and project overviews. Gained experienced in phishing, software attacks, and encryption given the sensitivity of patient information.

Doctors Hospital / Patient Care Technician

Jan 2021 - Feb 2022, Augusta, GA

Developing and maintaining electronic health record systems while ensuring the smooth integration of different modules, implementing updates, and customizing software to meet the specific needs of healthcare providers along with patient's rights and privacy.

Heavenly Creations / After School Teacher

May 2019 - Aug 2021, Augusta, GA

Led an after-school coding club for elementary school students, introducing them to basic programming concepts through interactive games and projects.

Education

Sololearn Bootcamp / Python Developer Certification

Nov 2022 - Jun 2023, Online Workshop

Covered fundamental concepts in computer science while exploring the principles of OOP, including algorithms, data structures, debugging and problem-solving using Python and developmental skills in creating modular and scalable code.

SheCodes Bootcamp/ Front End Developer Certification

Nov 2022 - Jun 2023, Online Workshop

Web Development Fundamentals: Studied HTML, CSS, React, and JavaScript to build interactive and responsive web pages. Explored front-end development techniques and best practices.

Augusta University / Bachelor of Arts in English

Aug 2016 - Dec 2020, Augusta, GA

Engage in long-term projects, honing project management skills. Trained to analyze texts, think critically, and solve problems.

Projects

Netflix Landing Page Replica

August 2023

Developed a responsive landing page inspired by the Netflix interface and implemented a dynamic carousel to display featured movies and shows. The technologies used for this project were Bootstrap, VS Code, React, and Javascript.
